

# Hydraulic Oil

Full line of hydraulic oils for a wide variety of industrial applications

## Hydraulic BL 32, 46, 68, 100

is designed to transfer power even under difficult conditions found in metal machining, metal forming and extrusion operations. This Hydraulic Oil contains premium additives for the highest level of performance. The oil is effective in a wide range of temperatures and reduces wear, rust and corrosion on equipment. Product is suitable for hydraulic systems in metal press, rolling mills and pressing as well as power unit of CNC Machine Tools.
