

Spindle Oil

Critical spindle bearing circulation lubrication is insured by our line of light base oils with low foaming and high shear resistance.

Spindle Oil BL 2, 10, 22, 32, 46

For the lubrication of high-speed spindle bearings in CNC Machine Tools.

Spindle Oil is a premium performance oil. It also used in some critical hydraulic, circulation systems and air line oilers where the appropriate viscosity grade is selected. They are formulated from select high-quality, low viscosity base oils and additives that impart good resistance to oxidation and protection from rust and corrosion. They possess very good resistance to foaming and separate readily from water.
